

## “PARR PRO” Professional Blood Pressure Monitor

Model: X9

The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Rossmax International Ltd. is under license. Other trademarks and trade names are those of their respective owners. The blood pressure monitor uses Bluetooth® (Bluetooth® low energy technology)

### ♥ PARR PRO

#### ♥ AFib Atrial Fibrillation Detection (AFib)

The upper chambers of the heart (the atria) beat irregular (quiver) and mostly fast instead of beating effectively to move blood into the ventricles. This condition is associated with a higher risk for cardiac blood clots, stroke, heart failure and other heart-related complications. About 10% - 20% of patients who suffer from an ischemic stroke also suffer from atrial fibrillation.

#### ♥ PC Premature Contraction Detection (PC)

Extra, abnormal heartbeats generated in abnormal locations of your heart, either in the atria (PAC) or in the ventricles (PVC) or the cardiac conduction nodes (PNC). These extra beats disrupt your regular heart rhythm, sometimes causing palpitations (e.g. skipped beats) in your chest. It may occur singularly or repetitively with various incidence. If not stress-related, they are a sensitive marker for a multitude of cardiac disorders, elevated ischemic stroke risk with PC.

#### ♥ TACH Tachycardia (TACH)

Fast heart rate of more than 100 beats per minute (BPM) in adults. Unless being caused by physical or mental stress, indicator for cardiac and extra-cardiac disorders (e.g. coronary heart disease, hyperthyroidism, fever).

#### ♥ BRAD Bradycardia (BRAD)

Slow heart rate, heart rate of less than 55 beats per minute in adults. Unless caused by endurance training heart adaption, bradycardia may be related to a multitude of cardiac and extra cardiac disorders (e.g. electrolyte imbalance, medication, coronary and / or valvular heart disease).

- Bluetooth® low energy Technology
- Arrhythmia Detection (ARR)
- Atrial Fibrillation Detection (AFib)
- Premature Contraction Detection (PC)
- Tachycardia Detection (TACH)
- Bradycardia Detection (BRAD)
- Both automatic and auscultatory measurement available
- Cuff Detection
- Movement Detection
- Hypertension Risk Indication
- 90 memories with date & time
- Latex-free small, medium & large cuff included
- Cuff Holder Design
- Jumbo Size “XL” Digit ( LCD size: 99\*115 mm)
- Backlight LCD
- Adaptor Socket
- Lifetime Calibration
- PC Link (optional)
- Carry Bag

- Bluetooth® low energy Technology
- ARR/AFib
- ARR/PC
- ARR/TACH
- ARR/BRAD
- Automatic and Auscultatory
- Cuff Detection
- Movement Detection
- Hypertension Risk Indication
- 90 memories for Auto Mode
- Medical cuff
- Cuff Holder Design
- Jumbo size “XL” digit
- Back light LCD
- ESH European Society of Hypertension protocol
- BIHS British & Irish Hypertension Society (BSHS)

L size: 34~46cm (13.4”~18.1”)  
 M size: 24~36cm (9.5”~14.2”)  
 S size: 16~26cm (6.3”~10.2”)

| Model       | Qty per carton | Carton volume |
|-------------|----------------|---------------|
| X9          | 6 pcs          | 0.036 cbm/ctn |
| QTY per 20' | QTY per 40'    | QTY per 40'HQ |
| 4662 pcs    | 9330           | 10830 pcs     |

Patent Nos:  
 US: 7597667B2; 9,724,046 B2  
 TW: I533839; TW: 191076; TW: I236891; TW: I322262  
 CN: ZL 2014 3 0414183.2; CN: 469964  
 Other patents pending

Storage and Transportation Condition  
 -10°C~60°C(14°F~140°F)  
 10%~90% RH, 700~1060 hPa
